RISK NARRATIVE

This audit detected 6 issue(s), including 2 critical and 2 high-severity items that may affect Merchant Center trust signals. Address critical findings first, then re-submit products or request a review once fixes are live.

Shopping Rescue · Confidential audit report

2 / 10

Remediation checklist

Fix these issues in order — highest severity first. Each card contains concrete actions required before running a new audit.

ISSUES 1–3

01 **CRITICAL** SQ-002

Missing or incomplete contact information on key pages

1. Open Shopify Admin → Online Store → Pages → Contact.
2. Add structured address block with street, city, postal code, country.
3. Add click-to-call phone number in header and footer.
4. Republish and verify on mobile and desktop.

02 **CRITICAL** SQ-004

Return policy page missing required refund timeline

1. Edit Refund Policy in Shopify Settings → Policies.
2. Add explicit return window and refund processing timeline.
3. Link policy from footer on all pages.

03 **HIGH** SQ-007

Shipping costs not clearly disclosed before checkout

1. Add shipping calculator or flat-rate table to product template.
2. Update banner copy to match actual shipping rules.
3. Sync shipping settings in Merchant Center.

Remediation checklist

Continue through the prioritized remediation sequence below.

ISSUES 4-6

04 **HIGH** SQ-011

Structured product data missing availability on several SKUs

1. Audit theme product JSON-LD snippet.
2. Map inventory status to schema.org availability values.
3. Validate with Google Rich Results Test.

05 **MEDIUM** SQ-015

About page lacks verifiable business history

1. Add legal business name and registration info.
2. Include photos of warehouse or team if available.
3. Cross-check with Merchant Center business information.

06 **LOW** SQ-018

Duplicate meta descriptions on category pages

1. Export collection SEO fields from Shopify.
2. Rewrite unique descriptions per category.
3. Republish and recrawl.

FINDING 01 · SQ-002

CRITICAL Business identity 92% confidence

Missing or incomplete contact information on key pages

AFFECTED URL

<https://www.example-store.com/pages/contact>

WHAT WE FOUND

The contact page does not display a visible business address and phone number in the main content area. Merchant Center misrepresentation policies require clear, accessible contact details that match your Business Profile.

RECOMMENDED ACTION

Add a complete business address, customer service email, and phone number to the contact page footer and header. Ensure details match Google Business Profile and Merchant Center business information.

TECHNICAL EVIDENCE

PAGE CRAWLED
</pages/contact>

ADDRESS VISIBLE
false

PHONE VISIBLE
false

EMAIL VISIBLE
true

IMPLEMENTATION STEPS

1. Open Shopify Admin → Online Store → Pages → Contact.

2. Add click-to-call phone number in header and footer.
3. Add structured address block with street, city, postal code, country.

4. Republish and verify on mobile and desktop.

FINDING 02 · SQ-004

CRITICAL Policies 88% confidence

Return policy page missing required refund timeline

AFFECTED URL

<https://www.example-store.com/policies/refund-policy>

WHAT WE FOUND

The return policy mentions returns are accepted but does not specify the number of days customers have to return items or how refunds are processed.

RECOMMENDED ACTION

Publish a return policy that states the return window (e.g. 30 days), condition requirements, refund method, and processing time.

TECHNICAL EVIDENCE

RETURN WINDOW STATED

false

REFUND METHOD STATED

partial

POLICY LINK IN FOOTER

true

IMPLEMENTATION STEPS

1. Edit Refund Policy in Shopify Settings → Policies.

2. Link policy from footer on all pages.
3. Add explicit return window and refund processing timeline.

FINDING 03 · SQ-007

HIGH Shipping 81% confidence

Shipping costs not clearly disclosed before checkout

AFFECTED URL

<https://www.example-store.com/products/sample-product>

WHAT WE FOUND

Product pages show free shipping messaging in the hero banner but shipping costs vary by region and are only visible at checkout.

RECOMMENDED ACTION

Display shipping cost estimates or thresholds on product pages and cart. Align on-site shipping messaging with Merchant Center shipping settings.

TECHNICAL EVIDENCE

SHIPPING ON PDP

missing

FREE SHIPPING BANNER

true

MC SHIPPING SETTING

flat rate

IMPLEMENTATION STEPS

1. Add shipping calculator or flat-rate table to product template.
2. Sync shipping settings in Merchant Center.
3. Update banner copy to match actual shipping rules.

FINDING 04 · SQ-011

HIGH Products 79% confidence

Structured product data missing availability on several SKUs

AFFECTED URL

<https://www.example-store.com/collections/all>

WHAT WE FOUND

JSON-LD Product schema on 6 of 20 sampled products omits the availability field, which can cause mismatches with Merchant Center feed status.

RECOMMENDED ACTION

Ensure all product templates output schema.org availability (InStock / OutOfStock) matching inventory levels.

TECHNICAL EVIDENCE

PRODUCTS SAMPLED

20

MISSING AVAILABILITY

6

SCHEMA TYPE

Product

IMPLEMENTATION STEPS

1. Audit theme product JSON-LD snippet.
2. Validate with Google Rich Results Test.
3. Map inventory status to schema.org availability values.

FINDING 05 · SQ-015

MEDIUM Trust signals 74% confidence

About page lacks verifiable business history

AFFECTED URL

<https://www.example-store.com/pages/about-us>

WHAT WE FOUND

The about page uses generic marketing copy without company registration details, founding year, or physical presence indicators.

RECOMMENDED ACTION

Expand the about page with verifiable business identity signals: legal name, registration number where applicable, and team or location context.

TECHNICAL EVIDENCE

LEGAL ENTITY NAME

missing

FOUNDING YEAR

missing

PHYSICAL PRESENCE

vague

IMPLEMENTATION STEPS

1. Add legal business name and registration info.

2. Cross-check with Merchant Center business information.
3. Include photos of warehouse or team if available.

FINDING 06 · SQ-018

LOW SEO / Quality 66% confidence

Duplicate meta descriptions on category pages

AFFECTED URL

<https://www.example-store.com/collections/shoes>

WHAT WE FOUND

Three category pages share identical meta descriptions, reducing page uniqueness signals.

RECOMMENDED ACTION

Write unique meta descriptions per collection reflecting category-specific inventory.

TECHNICAL EVIDENCE

DUPLICATE GROUPS

3

PAGES AFFECTED

9

IMPLEMENTATION STEPS

1. Export collection SEO fields from Shopify.

2. Republish and recrawl.
3. Rewrite unique descriptions per category.

This report is an independent automated diagnostic based on publicly accessible storefront data. It does not guarantee Google Merchant Center reinstatement and is not legal advice. Findings indicate probable causes — verify each item against your live site and Google Merchant Center policies before requesting review.
